This is to clear up any confusion that may have been caused relative to the above cited case after I received your call on June 24, 1983. On that date you asked that I assign an attorney to work with Bill Simes on the immediate removal action at Prairie. I thought that name was familiar and upon further checking I found that you had called me in late May with the same request. I had assigned Pierre Talbert to the matter who contacted you on May 27, 1983 (see attached phone memo). For any further actions on this matter please contact Pierre (886-6839) initially.
